DISCUSSION AND CONCLUSIONS OF LAW:

Connecticut General Statutes §20-154 provides in pertinent part that:

The certificate of registration, permit or license of any optician or of any optical permittee may be revoked, suspended or annulled or any action taken under 19a-7 upon decision after notice and hearing by the board for any of the following reasons...illegal or incompetent or negligent conduct of his business as such licensee or permittee; [and] ...violation of any provision of this chapter....

Connecticut General Statutes §20-153 provides in pertinent part that:

The department may grant annually...an optical permit to any optical establishment, office, department or store conducted under the personal and direct supervision of a licensed optician, for permission to sell, dispense or supply to the ultimate wearer optical aids to vision, instruments, appliances, eyeglasses, spectacles and other kindred products. (Emphasis added.)

The Board has concluded that this language requires that an optician be on the premises at all times. This interpretation has been upheld by the Appellate Court. U.S. Vision, Inc. v. Board of Examiners for Opticians, 15 Conn. App. 205, 216 (1988). It is therefore a violation for an optical shop to be open for several hours without the proper supervision by an optician.

The evidence is convincing that at more than one time between February 10, 1994 and January 12, 1995, Mr. Rodrigues either arrived after the Optical Shop had opened or left for part of the day, and the shop was open for business without the presence of a licensed optician.

The evidence also established that during this period, employees who were not either an optician or an apprentice provided a broad range of services to customers. This covered measuring for lenses; dispensing eyeglasses (which included verifying that the customer could see well with the glasses and adjusting the glasses if necessary), and dispensing contact lenses.(which included helping the customer put the lenses in and giving them procedures on how to clean them).

As an owner of the Optical Shop and the responsible optician, Mr. Rodrigues is accountable for events occurring at the shop and the conduct of his employees. If the shop is opened to the public without a licensed optician, he must bear the fault. If there are licensed activities being performed by persons who are not a licensed optician or registered apprentice, he also must bear the responsibility.

The Department bears the burden of proof by a preponderance of the evidence. The Department has sustained its burden as to all of the allegations. The Board finds that there is sufficient evidence to establish that Mr. Rodrigues and the Optical Shop are subject to disciplinary action pursuant to Connecticut General Statutes §20-154.

ORDER:

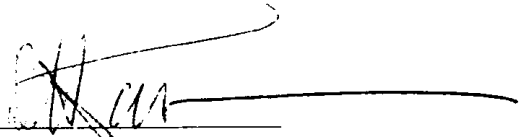

Pursuant to its authority under Connecticut General Statutes §19a-17 and §20-154, the Board of Examiners for Opticians hereby orders the following:

1. Mr. Rodrigues is placed on probation for a period of six (6) months subject to the terms and conditions set forth in Paragraph 4 of this Order below.
2. The Optical Shop is placed on probation for a period of six (6) months subject to the terms and conditions set forth in Paragraph 4 of this Order below.
3. A licensed optician shall be on the licensed premises during all hours that the optical shop is open to the public.
4. During this probationary period, Mr. Rodrigues shall maintain a daily time sheet indicating who is supervising the Optical Shop and what other employees are on

duty. A copy of this log shall be sent monthly to Bonnie Pinkerton. Department
